EDUCATION

University of South Florida

Tampa, FL

Bachelor of Science, Computer Science

Expected May 2027

Relevant coursework: Software Engineering, Data Structures, Computer Organization, Program Design, Automata, Analysis of Algorithms, Programming Concepts

SKILLS

Languages: Python, Java, Kotlin, C, C++, C#, JavaScript, TypeScript, SQL, HTML, CSS, Bootstrap

Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI, Jetpack Compose, Media3, Pandas, NumPy

Databases & Cloud: PostgreSQL, pgvector, Firebase (Firestore, Auth), Supabase, SQLite, Docker, AWS

Developer Tools: Git, GitHub Actions, Jira, ServiceNow, Tableau, Unity, Android SDK, Vercel, Arduino, Chart.js

Software Engineering: Testing & Debugging, REST APIs, MVVM, AI Workflow Orchestration, RAG, Vector Search, Concurrent Processing, CI/CD

PROJECT EXPERIENCE

Game Shell (C, Linux)

- Developed an interactive Linux shell in C to execute and manage programs using `fork()`, `execvp()`, and `wait()`, with custom built-in commands and dynamic path management.
- Implemented command parsing, standard-input redirection, error handling, whitespace validation, and process synchronization; tested functionality against automated test cases.

Relational Database Querying System (MySQL, SQL)

- Developed and tested 18+ SQL queries against a relational MySQL database using multi-table querying, joins, subqueries, aggregation, grouping, and data filtering.
- Applied relational database concepts and structured query strategies to solve complex data-retrieval problems while following SQL coding standards and avoiding unnecessary hard-coded values.

Snake Game (C++) – Created a terminal-based Snake game with dynamic tail logic and score tracking.

Weather App (HTML/CSS/JS) – Built a responsive web app using OpenWeatherMap API for real-time weather data.

Expense Tracker App (HTML/CSS/JS) – Designed a personal budgeting tool with localStorage support and spending visualization via [Chart.js](#).

Arduino Robot “BULLS” – Led a team to build a budget-friendly Arduino robot with obstacle detection and remote control using IR sensors.

WORK EXPERIENCE

Software Developer Intern

Jun 2025-Sep 2025

Walton Hi-Tech Industries Ltd.

Dhaka, Bangladesh

- Developed and tested software modules for embedded systems using C, C++, and Python; collaborated with senior developers to debug and optimize firmware, designed a web-based tool for device performance monitoring, and gained hands-on experience with Git, APIs, databases, and Agile workflows.

Guest Services Attendant

May 2024 – Present

Yuengling Center

Tampa, FL

- Supported events with 5,000+ attendees, ensuring guest safety and providing responsive customer service.

Sales Associate

Jan 2022 - April 2022

B.C.Sen Jewellers

Dhaka, Bangladesh

- Welcomed 10+ customers daily, guiding them through our collections and recommending tailored options to enhance their shopping experience.

Dining Services Associate

August 2022 - April 2023

USF Juniper Dining

Tampa, FL

- Operated dining equipment efficiently and served 100+ students daily, ensuring smooth service.

Teacher Assistant

April 2021 - July 2021

Edcam Education

Dhaka, Bangladesh

AFFILIATIONS

Training Associate, Hegemon Group International

May 2023 - Present

Member and Performer, Bangladesh Student Association

May 2021- Present
